

PROCEEDINGS OF THE DIRECTOR, S.C.E.R.T., TELANGANA, HYDERABAD

Present: B. Seshu Kumari

Rc.No.200/A/C&T/SCERT/TS/2019

Dated: 11.02.2020

Sub:- School Education Department – SCERT, Telangana, Hyderabad – Creating awareness of the Novel Corona Virus – Communicated – Reg.

Ref:- 1. Govt. Memo No.1117/SE.Genl.I/2020, dt: 08.02.2020 of the Addl. Secretary to Government, Telangana, Hyderabad.
2. Lr.D.O.No.Secy (HFW)/MP/Corona virus), dt: 05.02.2020 of the Secretary, Dept. of Ministry of Health & Family Welfare, Govt. of India.

* * *

All the RJDSEs, DEOs and Principals of DIETs, CTEs and IASE in the State are invited to the reference cited above and are instructed to sensitize the students with simple public health measures in preventing spread of Novel Corona Virus disease as directed by the Dept. of Ministry of Health & Family Welfare, Govt. of India.

The Ministry vide its letter 2nd cited has informed that though much is not known about the disease dynamics, it is evident that there is human to human transmission. As of now, there is no drug or vaccine available to manage this disease. Hence, preventive measures become crucial to stop spread of this disease.

As few travel related cases (3) were reported in India, the National Health Mission, Govt. of India has instructed to create awareness among students about preventive interventions such as frequent hand wash, respiratory etiquettes (using handkerchief over mouth while coughing/ sneezing, use of tissue paper or using the sleeve of shirt covering upper arm, staying away from school/ college when sick, avoiding public gatherings etc.) will help in preventing/ reducing transmission of not only this disease, but also large number of other communicable diseases, notably flu like illness.

Therefore, all the RJDSEs, DEOs and Principals of DIETs, CTEs and IASE in the State are informed to take necessary action to sensitize the students (schools and colleges) to follow the simple public health measures as enclosed in the Information Pamphlet in preventing the spread of Novel Corona Virus and other communicable diseases.

Encl.: Information Pamphlet

To
All the RJDSEs in the State.
All the DEOs in the State.
All the Principals of DIETs, CTEs and IASE.

Reduce the risk of Coronavirus infection

Follow these important precautions

1
Wash hands with soap and water frequently

2
When coughing and sneezing, cover mouth and nose with handkerchief, tissue or elbow

3
Avoid close contact with anyone with cold, cough or flu like symptoms

If you have cough, fever or difficulty in breathing, contact a doctor immediately

Stay protected!

Stay safe from Coronavirus!

If you have returned from **Wuhan** China after January 15, then get yourself tested for 2019-nCov. To know about the centres for testing, call the Ministry of Health and Family Welfare Helpline

If you have returned from China in the last 15 days or have been in contact with any person affected by Coronavirus, then limit your contact with others and use a separate room for sleeping

If you develop fever, cough and difficulty in breathing within 28 days of return from China, immediately call the Ministry of Health and Family Welfare Helpline
