SCERT TELANGANA

Preface

The State Council of Educational Research and Training has developed State Curriculum Framework - 2011 and Position Papers in tune with the National Curriculum Framework - 2005 and the Right to Education Act - 2009. Accordingly a new set of textbooks has been designed to be introduced in a phased manner. In the year 2012-13, the first of this series of textbooks has been developed for classes I, II, III, VI, and VII. Practising teachers have been involved in the production of the books along with the state level and national level experts.

Hitherto, English was introduced in Non-English Medium Schools in class III. The State Government introduced English for the first time in class I in 2011-12 in all Non-English Medium Schools. This year, i.e., 2012-13, English is being introduced in class II in all Non-English Medium Schools. With this, all the classes from I to X will have English as one of the subjects, irrespective of the medium of instruction. Therefore, in order to have parity among students of English and non- English medium a common English Textbook is introduced in all media from June - 2012. Moreover, since IT enabled learning, multilingualism, and language across the curriculum would greatly enhance the child's learning, it would not be a problem for the non - English medium child to learn English as effectively as the one in English medium does. This single textbook norm is already in practice in many states including Tamil Nadu, Bihar, and Kerala.

The primary Textbooks titled 'MY ENGLISH WORLD' are prepared basing on holistic approach of language learning. The language skills namely listening, speaking, reading, and writing are integrated in the larger context of the themes suggested in NCF - 2005. The activities are designed as per children's knowledge and experiences which ensure their active participation in Teaching Learning Process.

The main aim of teaching English is to help learners evolve themselves as independent users of English. I hope this textbook will help teachers and students achieve this by making the teaching-learning process effective.

Inclusion of Gender Sensitivity and Child Sexual Abuse in School Text Books published by School Education Department with support of UNICEF is taken up to ensure protection of children through various interventions like personal safety rules, gender sensitivity, child sexual abuse, self esteem and life skills. In these areas safety mechanisms and laws related to child protection are taken care of. Hence, the teachers must know about these things and bring awareness among all the stakeholders.

I thank all the institutions and experts at the state and national level, the members of the textbook production committee, the staff members of the SCERT and all others who have contributed directly or indirectly for the successful production of this textbook.

Any suggestions for the improvement of this book are welcome.

Appendix - II

About the Textbook

The textbook for class II has been developed expecting the following learning outcomes by the end of the academic year.

Academic Standards

At the end of the academic year the children are expected to achieve certain academic standards. The everyday classroom transaction should ensure the achievement of the academic standards among the children. The following are the six broad categories of the Academic Standards.

1. Listening and Responding
2. Reading Comprehension
3. Vocabulary
4. Conventions of Writing
5. Creative Expression (Oral and Written Discourses)

We expect the learners in class II to listen to narratives, descriptions, rhymes / songs and dialogues / roleplay, read them and construct the following discourses both orally and in the written form (possibly by virtue of graphic writing)

1. Descriptions (objects, person and places).
2. Conversations with at least two exchanges related to their likes, dislikes, needs, etc.
3. Story / Narrative containing events and dialogues.
4. Rhymes / songs by substituting words or phrases.

This textbook contains eight units. Each unit deals with a specific theme and has the same characters throughout. Each unit begins with a face sheet followed by another picture connected to the listening passage. The reading text is followed by language activities such as vocabulary, writing, sing/dance add lines etc.

Assessment

Language learning is a continuous process and its assessment is not a distinct activity from learning. Since learning is facilitated through group discussions, peer discussions and individually, assessment also operates at the individual level, in peers and in groups. This will help the learners to compare their strengths and weakness and

SCERT TELANGANA

make modifications in their learning. We propose Continuous and Comprehensive Assessment at all levels of language learning.

There are two types of assessment. One is formative and the other is summative.

Guidelines for Formative Assessment

Formative assessment is done based on four tools that cover all the language competencies (academic standards). These are:

1. Observation 2.Notebooks 3.Slip test 4. Project work

Formative assessment is conducted for 50 marks out of which sliptest, notebooks and project work are allotted 10 marks each and 20 marks for observation.

Children's performance is assessed during each term. This is not a single day activity; it is a cumulative account of what has happened in a day- to-day class room transaction.

Criteria for awarding marks under each tool:

Observation: The oral performance of children related to classroom activities which cover the academic standards i.e., listening and speaking, reading comprehension and their indicators should be considered while awarding marks.

Notebooks: The written performance of children related to conventions of writing, vocabulary and their indicators should be considered while awarding marks.

Slip Test: This test should be conducted without giving any prior notice to children. This test should cover the targeted academic standards and should be based on day to day classroom transaction.

The following are the evidences for awarding marks:

- Teacher's unit cum period plan that reflect children's performance.
- Big books or other products evolved in groups through collaboration
- Scripts of Slip Test

Summative Assessment

There will be a two Summative Assessments in an academic year. The test is for 50 marks. Out of these, 30 marks are allotted for oral test and 20 marks are allotted for written test.
